- A PRESENTATION BY VICKI THORN

DID YOU KNOW?

- ▶ a mother carries cells from every child she has conceived in her life?
- ▶ science explains the differences between the brains of men and women?
- ▶ chemical contraception can cause a woman to choose a mate with a lower likelihood of fertility?
- ▶ boys learn better when they are moving, and girls are better multitaskers?
- ▶ vasectomies set off an autoimmune reaction in men?
- ▶ the Church's teaching on sexual morality is **not outdated** and has **significant benefits** for your physical, mental and spiritual well-being?
- ▶ children lost to miscarriage or abortion are often known intuitively by their siblings?
